

Best organic egg laying booster supplement- Moringa

Benefits of moringa

Moringa boosts egg laying percentage and chicken health due to its nutritional composition. Furthermore, it boosts egg quality by facilitating thick shell formation, boosting egg weight and boosting egg York color. Additionally, moringa boosts egg hatchability, boosts chicken immunity and also also helps layers to cope with heat stress by clearing off radicles in the chicken body.

Moringa Powder preparation

Start by selecting good quality moringa leaves, thereafter clean the leaves well and air dry them under shade to avoid loss of nutrients. Furthermore, when leaves dry and become crunchy, crush them and thereafter add 5% of the powder in layer chicken feeds.
