# Coccidiosis Organic Treatments in Chicken

## Organic benefits and action

Organic treatment is advantageous in treatment of coccidiosis since it is cheap and the materials used to prepare the medicine are readily available, secondly organic treatment of coccidiosis does not damage the health of birds since it has no side effets. Usually organic materials treat by cutting disease lifecycle, boosting chicken immunity and promotes growth of gut microflora.

## Organic treatment

Either grind or chop garlic and mix it in both feeds and water to break the disease lifecycle. Pound and mix paw paw leaf powder in both feeds and water to increase body immunity. Dry and grind green tea leaves into powder, then mix it in feeds and water to kill coccidiosis parasites.
