

Fastest organic broiler fattener supplement

Extract benefits

The pawpaw leaf extract improves feed palatability, boost broiler weight gain and reduces production costs. Furthermore the extract improves feed intake, promote good gut health and digestion. Additionally, the extract also boosts broiler meat quality due to presence of the papain compound in pawpaw leaves. Also pawpaw extract kills coccidia parasites, accelerate gut wound healing, improves feed palatability and reduces production costs.

Extract preparation

For pawpaw powder preparation start by cleaning and air drying pawpaw leaves under shade and grind them into powder. On the other hand for extract preparation, obtain, clean and grind pawpaw leaves, thereafter add water and sieve. Thereafter, add 2% of powder in every 10kg of feeds and 5 MLS in every liter of drinking water.
