

Organic Banana leaf meal and extract to boost weight gain and growth performance in broiler

Meals and extract benefits

It boosts body weight, growth rate as well as feed conversion. Additionally, the meal and extract boost digestion, mineral absorption, and calcium uptake for strong bone formation. Also, the meal and extract kill harmful gut bacteria, and stimulate immunity. Lastly, it also promotes gut health and determines uniform fat distribution.

Meal and Extract Preparation

For meal preparation start by cutting leaves, thereafter detach leaves from the stalk and wash them properly. Furthermore, air dry the leaves until they become crunchy and crush them thereafter to obtain the powder. On the other side when preparing the extract soak 50 grams of leaf powder in hot water overnight and thereafter sieve.
