

Organic treatment for abnormal chicken poop colour

Prevention and treatment

Always, feed chicken adequately and provide less vegetables to chickens. Additionally, extract and 8 spoons of aloe vera gel to each liter of chicken drinking water and mix before giving it to birds. Alternatively make a bitter leaf extract, add 250 MLS of extract to every liter of drinking water. Also make a basil extract and add 100 MLS of basil to each liter of drinking water. Lastly, you can also dry thyme leaves to make powder, add 200 grams to powder to 10 kg of chicken feeds.
